Options trading entails significant risk and is not appropriate for all investors. Prior to trading options, you must receive a copy of Characteristics and Risks of Standardized Options, which is available from Fidelity Investments, and be approved for options trading. Supporting documentation for any claims, if applicable, will be furnished upon request.

Fidelity Brokerage Services LLC, Member NYSE, SIPC, 900 Salem Street, Smithfield, RI 02917
This release includes the following changes to the Research Options area of Fidelity.com.

**Option Chain Enhancements**

To provide a better customer experience, the Option Chain has been redesigned to give the user more control over the data you view.

Filtered Results – View results based on Strategy, number of Strikes to view and minimum Volume and Open Interest.

2 Expirations – Toggle Weekly expirations On/Off to manage the number of expirations you are viewing.

3 Histogram – View the relative distribution of volume and open interest among the options of each viewed expiration.

4 Customizable Columns – Choose the columns to view from Settings to see the data important to you.

Options trading entails significant risk and is not appropriate for all investors. Prior to trading options, you must receive a copy of [Characteristics and Risks of Standardized Options](#) which is available from Fidelity Investments, and be approved for options trading. Supporting documentation for any claims, if applicable, will be furnished upon request.
This release includes the following changes to the Research Options area of Fidelity.com.

**Multi-Leg Option Chains**

View chain results for a multi-leg option strategy by choosing one of our default offsets or input your settings by using the Custom Offset field.

1. **Default Offset**
   Choose from one of the default offsets based on the minimum increment between strikes.

2. **Custom Offset**
   Choose a custom offset setting for the difference between the legs of 2-, 3-, and 4-legged strategies.
